

TECHNICAL DATA SHEET

UNIQUE Q860 PROTECT PG

Product Information:

Revision index / date: A, January 2018

UNIQUE Q860 PROTECT PG

Description:

UNIQUE PROTECT PG is a concentrate to be diluted to protect the spray nozzles during winter storage. It contains a specific surfactant that dissolves the phytol residues.

In order to ensure that the spray gun can be immediately reused without a problem, the product cleans and provides protection from the following:

- freezing
- corrosion of metal parts
- Drying and ageing of the seals, hoses, etc.
- Protects the spray nozzles.

Product features:

- Reduces the risk of poisoning people and animals in case of accidental ingestion
- Protection from frost damage
- Protection of the seals and from the blocking of the spray nozzles.

Application:

AGRICULTURAL

Packaging:

4 X 5 L, 1 X 20 L, 1X 60 L, 1 X 210 L, 1000 L

Typical data:

Characteristics	Method	Units	Typical	Mini	Maxi
Viscosity grade	SAE-J	-	140	-	-
Kinematic viscosity @ 100°C	ASTM D 445	cSt	28.1	24.0	32.0
Kinematic viscosity @ 40°C	ASTM D 445	cSt	400	-	-
Brookfield viscosity		cP	-	-	-
Density	D20/4	-	0.898	-	-
Color	Visual	-	Green	-	-
Spectrometric analysis Phosphorus Sulphur	ICP	ppm	150 7800	± 10%	

The reader is advised, especially for critical applications, to make the final product choice in consultation with the supplier. Due to continual product research and development, the information contained herein is subject to changes without notification. The data mentioned in this product information sheet is meant to enable the reader to orientate himself about the properties and possible applications of our products. Although this overview is composed with all possible care on the stated date, the compiler does not accept any liability for damages caused by incompleteness and/or inaccuracies in this information, especially when these are caused by obvious typing errors. The terms of delivery of the supplier apply to all product supplies.
